

## Rubber Rollers APR-97 series for Peel Tests

For measurings according to different standards

### Feature

- Precise measurement by pasting a sample with certain pressure. Designed to meet ISO and JIS standard test requirement. Customized models for ASTM standards are available on request.

**Application**

<b>APR-97-1K</b>	JIS Z 0237:2022	Testing methods of pressure-sensitive adhesive tapes and sheets
	ISO 29862:2018	Self adhesive tapes - Dertermination of peel adhesion properties
<b>APR-97-2K</b>	JIS Z 0237:2022	Testing methods of pressure-sensitive adhesive tapes and sheets
	ISO 29862:2018	Self adhesive tapes - Dertermination of peel adhesion properties
	ISO 29863:2018	Self adhesive tapes - Measurement of static shear adhesion

**Specifications**

<b>Model</b>	APR-97-1K	APR-97-2K
<b>Weight</b>	Approx. 1000 g	Approx. 2000 g
<b>Width</b>	45 mm	
<b>Material</b>	Rubber (hardness A80)	

Other weights and width available on request
