

## Tape Grip PPC-5000N

For tensile tests on polypropylene strapping bands

PPC-5000N

### Feature

- Special design, to clamp strapping bands without slipping
- Minimize ripping of the band while inserting the band

## Clamping the band

Die Probe einmal zusammenlegen und einfädeln

Aus der zusammengelegten Probe eine Schlinge formen

Den Bolzen durch die Schlinge schieben

## Applications

- Measuring according JIS Z1527:2002 Polypropylene Band are possible

## Note

- Particular materials and shape can not be used.
- Combining with a test stand, more stable measuring becomes possible.
- All information is subject to change without prior notice.

**Specifications**

Model	PPC-5000N
Capacity	5000 N
Max. width of sample	40 mm
Max. thickness of sample	1 mm
Weight	620 g
Mounting thread	M 10

**Dimensional drawing**
