

Guide ruler for adhesive tape peel tests GRP-50

For positioning a sample on a table

Features

- To help correctly position the adhesive tapes for the peel tests with the peeling strength tables P90-200N, P90-200N-EZ, P180-200N
- With the guiding, the tapes are fixed parallel to the peeling direction for accurate measurements

Notes

- Particular materials and shape can not be used.
- Combining with a test stand, more stable measuring becomes possible.
- All information is subject to change without prior notice.

Specifications
